ARTICLE 1: GENERAL INFORMATION

The Journey and History

The Ciracas Adventist Academy is a private Christian academy funded by the Ciracas Adventist Church under the supervision of the Jakarta Conference of the Seventh-day Adventist Church. It contributes to enhancing the community's education level though a holistic approach that addresses the spiritual, mental and physical aspects of its learner.

Its journey can be traced back as far as July 1989 under the name of Adventist Elementary School (SD). It began humbly with only two modest classrooms and a total of 26 students from grades 1 and 2. In response to the community's need for a holistic and quality education that extends to older students, the school established a Junior High School (SMP) with an initial enrollment of 16 students in July 1995. A decade later, the management also decided to open education at the kindergarten level (TK).

In 2013, CAA started offering a program to meet the demand for a senior high school in the district. At the time of the conception of the Senior High School (SMA), the school had a single campus located on Jl. Raya Bogor KM. 26. At the outset, the Senior High School had 32 students, which was followed by a total of 68 graduates at its first commencement exercises in 2013.

The continued expansion of the student population eventually

necessitated the construction of a separate building exclusively for senior high school in 2017. God opened the door of opportunity for the academy to acquire a property that was previously a Muslim school

located in Kelapa Dua Wetan. The academy paid in full after four years of installments. This building is now known as Campus B (Kelapa Dua Wetan Building) of Ciracas Adventist Academy while the former building in SD-SMP becomes known as Campus A (Ciracas Building).

When SMA moved into Campus B, it only had single-story building that а

accommodated the classrooms and the teachers' office. In June to December 2020, the school began constructing the hall, followed by the second and third floors, respectively. Finally, Building B of Ciracas Adventist Academy had its inauguration on January 20, 2021.

Since its inception, SMA has shown significant improvements in its facilities, learning and teaching processes, and educational activities. It continues to highlight the positive performances of its alumni in gaining admission

In the near future, the school plans to use English as the medium of instruction in the classroom. In 2025, the program aims to begin with three subjects: Mathematics, Biology, and Chemistry. As preparation for this, incoming freshmen will receive extensive English training to meet the English requirements of the mentioned subjects.

The School Logo and Slogan

THE SCHOOL LOGO

The **TRIANGLE** symbolizes the school's commitment to the overall well-being of its students, focusing on three interdependent dimensions: mental, physical, and spiritual. These aspects are essential for achieving a holistic balance in personal well-being, fostering growth and facilitating learning.

The **BOOK** represents the BIBLE, which is the perfect standard of truth and the source of all true education. The school's primary objective as an educator is to guide the student's mind toward God's own revelation of Himself in His Word.

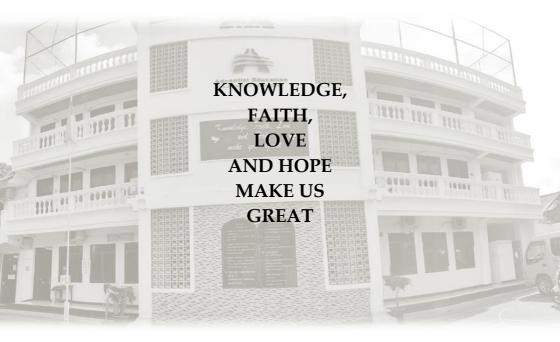

The **LIT CANDLE** symbolizes the light of Christ, which guides the school on the right path in its dedication to serving the community through Christian education and instruction. It is also a reminder to truly live the words of our Lord: "I am the Light of the World."

Students are responsible for being on time to each class period. A student is considered tardy if he/she is not in the school when the morning assembly begins.

- 1. All students must be in their own class after the school bell rings, indicating the start of a new class period.
- 2. Students who are 10 to 15 minutes late to school are not allowed to attend the first class, and are required to clean the school premises.
- 3. Students who are late more than 15 minutes but not exceeding 30 are not allowed to attend the first and second classes, and are required to clean the school premises as well as windows/ window bars.
- 4. Students who are late more than 30 minutes have to clean school premises and mop floors, and will be given an oral reprimand or counselling by the guidance counsellor.
- 5. Tardy students may only enter their next classes after obtaining permission from the picket teacher or the principal.
- 6. Disciplinary measures for the frequency of tardiness are directed to the Student Progressive Discipline and Violation Point System.

Truancy or Cutting Class

A student is classified as a truant when he/she is at a location that does not comply with school rules. The following instances are considered truant behaviors:

- 1. Loitering on campus during class.
- 2. Leaving the campus for any non-school-related purposes without obtaining prior authorization from the homeroom teacher, picket teachers, or principal.
- 3. Not attending school without parents/guardian's authorization.

Disciplinary measures for truancy are directed to the Student Progressive Discipline and Violation Point System. In addition, truant students may be sanctioned to clean the school premises as determined by the picket teachers.

Permission to Leave School Early

During the school week, there may be instances where families need to provide authorization for a student to depart from the school premises early. The subsequent steps outline the procedure to follow in order to obtain permission for early departure from school.

- 1. The parents or guardian of the student are required to notify the homeroom teacher in case of an emergency by providing a signed note or making a phone call, specifying the reason for the early departure.
- 2. In cases where the teacher or principal questions the authenticity of the signed note, the homeroom teacher is required to contact the student's parents/guardian to ask them to retrieve their child from school.
- 3. In the event that the student suddenly becomes ill and needs to go home early, the homeroom teacher must call the parents/guardian to ask them to either retrieve their child or send a car to pick him/her up from school.
- 4. The student is required to take responsibility for arranging any missed class work or activity due to an early departure.

Student Make-Up-Work Related to Absences

Students with excused absences are not exempt from completing all classwork, assignments, or graded tasks missed during their absence. It is the student's responsibility to acquire all make-up work, including tests, upon their return to school. In order to prevent receiving a grade of 0% on any missed classwork or task, students are obligated to adhere to the procedures outlined below to ensure compliance with the missed requirements in the classroom.

1. Upon returning to school, students who were absent are required to promptly contact their subject teachers to obtain any missed classwork, either through WhatsApp or in person.

- 2. Students who engage in communication with their subject teachers are eligible for one additional day of make-up time for each day of absence.
- **3**. Students who have missed a significant amount of classwork should not postpone its completion, and wait for remedial classes at the end of the semester to complete them. Remedial classes are not intended for students who have missed classwork, assignments, or projects, but rather for those who, despite completing all class requirements, are still struggling to keep up with the grade requirement of the school.
- 4. Any assignment not submitted within the one-day make-up window may be subject to a deduction in grade.
- 5. Students who continually ignore the reminders of the subject teachers to complete their missed classwork or assignment without clear plans or explanation will be sanctioned for willful disobedience according to the Student Progressive Discipline and Violation Points System.

Further, teachers have the authority to assign alternative tasks to students who are absent in order to uphold the integrity of the original assignments. These substitute tasks should not serve as a punitive measure and must be of comparable difficulty, value, and significance in the overall academic evaluation.

Section 3. Homework Policies and Procedures

- 1. Students are expected to complete homework by the assigned due date.
- 2. If a student is absent from school due to illness or another valid reason, the student is expected to complete the assignment according to teacher guidelines.
- 3. Students take responsibility for getting all assignments, whether they are in class or note.

- 4. Students make every effort to complete each homework assignment to the best of their ability.
- 5. Students should seek help from the teacher if he/she does not understand an assignment or has difficulty completing homework ahead of time.
- 6. Students who failed to turn in assignments on time due to circumstances beyond their control must make a written explanation signed by the parents/guardian.

Section 8. Seating Plan Policy

Seating arrangements are important classroom setting events because they have the potential to help prevent problem behaviours that decrease student attention and diminish available instructional time. Some of the benefits of a good seating plan includes the following:

- 1. Improved class management
- 2. Well-behaved students
- 3. Student's individual needs catered for
- 4. A safe and accessible classroom management

For this reason, the CAA strongly advocates for the enforcement of the Seating Plan Policy. Non-compliance will result in disciplinary measures. The following outlines the procedures and regulations for the implementation of the Seating Plan Policy:

- 1. The homeroom teacher is responsible for devising an effective seating arrangement that is optimal for the classroom setting.
- 2. The homeroom teacher is required to distribute a copy of the seating arrangement to all subject teachers to ensure that each teacher monitors the seating arrangement of every student in his/her respective class.

ARTICLE 7: STUDENT PROGRESSIVE DISCIPLINE

The Ciracas Adventist Academy is dedicated to establishing a secure, organized, and supportive setting that enables students to excel academically and thrive socially, emotionally, and spiritually. The implementation of a robust, transparent, and consistently enforced discipline policy facilitates the optimization of classroom hours for the enhancement of student learning outcomes.

Students who breach the Student Code of Conduct, as well as the regulations of Ciracas Adventist Academy for senior high school, will face disciplinary repercussions proportional to their misconduct. Typically, disciplinary measures will be applied in a progressive manner, with penalties escalating based on the seriousness or recurrence of the misconduct. Nevertheless, certain transgressions may necessitate immediate suspension or expulsion following the appropriate procedures and respecting the right to due process of each student. Throughout each stage, the school will strive to assist students in comprehending the potential positive or negative outcomes of their actions.

Section 1. Definition of Terms

Accumulated Violation Points (AVP). This refers to the total number of points a student has accumulated from all infractions recorded regardless of the levels of infraction (LOI). This includes points from past disciplinary incidents.

Community Service (CS). Community Service is a form of work education where students may be required to earn a number of hours of physical labor or volunteer service to develop qualities like a sense of responsibility, industry, patience and accountability. This service is typically performed at pre-approved NGOs or institutions by the

school, and must be coordinated with by the school's chaplain and VP for Student Affairs.

Counseling. At every infraction, the student will be informed of the next consequence should that behavior continue. The student will also be advised on how to avoid future misbehavior. In addition to behavior, the student's academic progress and attendance will be reviewed.

Detention. It is a consequence in which students are required to remain in a presumably undesirable place for a specified amount of time outside of school hours. It can also be served before school, during recess or lunch break, or after school hours. The goal of detention is to reduce future occurrences of the misbehavior. Detention time can be from a minimum of 15 minutes to one hour. However, it can also be extended to 1-3 days depending on the seriousness of the infraction.

Due Process. The right to due process in disciplinary proceedings is applicable in all instances where the behavior of the student is being evaluated for possible suspension or expulsion. The student is treated with fairness, has a right to be fully informed about his/her alleged breach of behavior and must be provided with an opportunity to respond to such charges.

Disciplinary Hearing. In cases where a student is accused of breaching behavior that could lead to suspension or expulsion, the school arranges a disciplinary hearing that includes the student, and parent/guardian, teachers, and/or principal. In this hearing, the student and parent/guardian are informed of the potential consequences. The student is given the opportunity to present their perspective and provide evidence or witness to support their innocence if feasible.

Discipline. The practice of training students to obey the school's code of conduct, rules and regulations, using appropriate disciplinary measures to correct misbehavior and disobedience.

Incident Report (IR). It is a written document that records all facts related to any serious incidents that impact students and/or school operations regardless of when and where they occurred. Incident reporting must be done within 24 hours after the incident occurs, or within 24 hours of school personnel being made aware that an incident had occurred.

In-School Suspension (ISS). It is a behavior management program or a disciplinary measure for student misbehavior aimed at keeping students in school to reflect, reconcile, and in most instances receive counselling to help with behavioral issues while being isolated from the rest of the student body.

Levels of Infraction (LOI). Infractions at CAA are classified into four groups in increasing levels that serve as a basis for a systematic, progressive discipline.

Level 1 Infractions (L1). These are minor misbehaviours or nonviolent infractions that do not necessarily pose a threat to the health, safety or property of others. Students are not referred to an administrator for Level 1 actions unless they continue after appropriate intervention and support.

Level 2 Infractions (L2). These are misbehaviors whose frequency or seriousness tends to disrupt the learning climate of the school and to seriously affect the student's own education. An administrator is notified when a Level 2 action occurs.

Level 3 Infractions (L3). These are misbehaviors whose consequence may pose a serious threat to the health and safety of others in school or has a lasting effect on the student. An administrator is notified

Page 69 of 102 Ciracas Adventist Academy when a Level 2 action occurs. This level may require the formation of a Student Disciplinary Committee Hearing.

Level 4 Infractions (L4). These are misbehaviors whose consequences pose a serious and immediate threat to the health and safety of others. This level requires the formation of a Student Disciplinary Committee Hearing.

Pastoral Care Follow-Up. The school offers pastoral care follow-ups for students who are undergoing disciplinary actions or have recently completed a disciplinary measure. These follow-ups are designed to provide support to students as they work towards making positive changes and managing challenges within the school or family environment.

School Disciplinary Committee (SDC). It is a school-level committee consisting of appropriate school personnel formed to decide on student disciplinary action after observing the due process and conducting a disciplinary hearing with the student and parent/guardian.

Out-of-School Suspension (OSS). It is an instance in which a student is temporarily removed from his/her regular school and activities to another setting (e.g., home, behavior center) for disciplinary purposes. A student on OSS is banned from visiting the school at any time until his/her OSS is lifted.

Verbal Reprimand (VR). It is an informal warning for cases of minor infractions, constitutes as the first step of the disciplinary procedure, and can be issued by any teacher.

Written Warning (WW). It is a written document for minor infractions, which is not considered to be serious enough and can be issued by any teacher. It is considered as a first formal notification to

alert the parents/guardians of the erring student. Other written warnings may follow if the student's behavior is not corrected.

Section 2. Progressive Discipline and Levels of Infraction (LOI)

The following outlines the different levels of infractions and corresponding actions to be implemented in disciplinary cases. Each situation will be evaluated on a case-by-case basis, dependent or independent of any previous incidents. These levels serve as a framework, with students progressing to higher steps for repeated instances of misconduct that warrant disciplinary measures.

Section 3. Violation Point System

In conjunction with the school's Student Progressive Discipline, a point system is utilized to identify students who persistently disrupt the educational process within the academy. At the onset of the academic year, each student is allocated 100 merits or points, with deductions incurred for each infraction committed, referred to as demerit

Section 5. Detention Procedures and Behavior Reflection Activities

The purpose of assigning detention is to correct misbehavior. Therefore, the goal of detention is to reduce future occurrences of punished behavior. It involves removing the student from enjoyable activities (e.g., going home to spend time with friends, recess) and replacing them with boring tasks to deter the student from repeating the misbehavior.

Detention Procedures

- 1. The teacher responsible for administering detention may opt to designate a separate room for the student, ensuring isolation from peers and classmates. This room could be located in areas such as the library, office, or an unoccupied classroom that allows for supervision.
- 2. Detention may be assigned either during lunchtime or after school in the designated room, depending on the duration of the detention.
- 3. The teacher determines the duration of detention (ranging from 15 minutes to a maximum of one hour) based on the severity of the infraction.

- 4. The teacher informs the parents of the student in the event that detention is required after regular school hours. This communication ensures that the parents are informed about their child's delayed arrival home.
- 5. The teacher confiscates the cell phone and electronic devices of the student to be returned only when the student is about to go home.
- 6. The teacher instructs the student to compose the behavior essay by utilizing the Student Behavior Reflection Sheet.
- 7. The student takes the essay home for parental signature, and then returns it to the teacher for filing, with a duplicate copy provided to the student.
- 8. If a student is detained for a day or longer, the teacher will assign various behavior reflection activities to the student.
- 9. Failing to attend a detention or engaging in misconduct during a detention will escalate the severity of the infraction to the subsequent level.
- 10. A full day detention may permit students in detention to attend classes, subject to the following restrictions:
 - a. They should be seated separately from each other and from classmates.
 - b. They are not permitted to join their peers during recess or lunchtime; instead, they are required to proceed to the designated area for detention. They may only return to the classroom after the break period has concluded with the permission of the teacher-in-charge.
 - c. Thy are not permitted to communicate with peers while serving detention.
 - d. After school hours, they are required to promptly report to the designated detention room for a duration of one hour. Failure to promptly report to detention will result in an extension of their detention period.

- 11. Students serving detention are deprived of specific privileges that would otherwise be available to them on the day of their detention. These privileges include, but are not limited to, engaging in athletics, participating in extracurricular activities, taking part in performances, or participating in recreational activities during free time.
- 12. The student's infraction should be documented in their behavior log as a point of reference for any potential recurrence of behavior in the future.

Suggested Behaviour Reflection Activities

- 1. Memorizing Bible verses that can serve as the student's reminder to correct the misbehaviour.
- 2. Reading one or more chapters of Steps to Christ, and requiring the student to provide a summary of the chapter(s) in their own words.
- 3. Requiring students to compose a behavior essay utilizing the Student Behaviour Reflection Sheet (refer to Appendix), which must be handwritten. This document should be retained on record with a duplicate provided to the student. The essay should consist of four sections:
 - a. Statement of infraction.
 - b. Explanation of why the behaviour is deemed inappropriate and unacceptable.
 - c. Specific action plans detailing strategies to prevent the recurrence of such misbehavior in the future should be provided. The teacher may ask the student to repeat the essay if the action plans are not specific, doable and realistic enough to be carried out.
 - d. Signature of both the student and parents or guardians must be affixed in the essay.
- 4. During detention, it is recommended that the student be separated from friends and other individuals, activities that they typically enjoy to focus on self-reflection.

5. Additional classwork or reading materials may be assigned to the student during detention.

Section 6. School Disciplinary Committee Hearing

In situations where a student's repeated violations have escalated to the point of necessitating suspension or the level of infraction is serious, the school may establish a temporary School Disciplinary Committee (SDC) to oversee an investigation and conduct necessary hearing procedures. If the student's presence in the school poses a risk to the well-being and safety of others within the school community, the student may be temporarily suspended from attending school until the conclusion of the hearing.

Section 7. In-School Suspension and Pastoral Care Follow-Up

In-School Suspension is a behavior management program or a disciplinary measure for student misbehavior aimed at keeping students in school to reflect, reconcile, and in most instances receive counselling to help with behavioral issues while being isolated from the rest of the student body. Below are some of the procedures that can be taken for students on ISS:

In-School Suspension Policies and Procedures

- 1. Students who are on ISS must ensure punctuality in attending school and refrain from further infractions to prevent exacerbating their disciplinary consequences. They are expected to exhibit exemplary behavior consistently.
- 2. Students may be obligated to participate in the morning devotional led by the faculty and staff, involving Bible reading and prayer sessions.

- 3. Students are prohibited from engaging in interactions with their peers or other students while in ISS.
- 4. Cell phones and electronic devices are to be relinquished to the designated teacher upon arrival at school and will only be returned at the conclusion of the school day.
- 5. Students are required to diligently complete all assigned learning materials and tasks to the best of their abilities within the specified deadline.
- 6. Prior authorization is required before any student on ISS can exit the isolation room for any reason.
- 7. Students on ISS must be under close supervision.

Pastoral Care Post-Suspension Follow-Up

Upon the lifting of the suspension, students are required to attend pastoral care post-suspension follow up sessions facilitated by the chaplain. These sessions are intended to be conducted on a one-onone basis with the student, aiming to create a supportive environment where the student can feel at ease and be encouraged to express their emotions, thoughts, and difficulties in school and family. Additionally, the chaplain may arrange a home visit to meet with the student's family especially for students who were in OOS.

Section 8. Out-of-School Suspension and Interventions

In all instances of suspension, it is crucial to take into account the student's reintegration into standard classes or school, as well as any potential disruptions to their educational progress. Often, the student will need supplementary educational or other forms of assistance to tackle the causes of the incident and/or any fundamental behavioral concerns.

Repeated or extended suspensions may fail to effectively address the underlying causes of a student's behavior, potentially resulting in

negative consequences for the student's learning involvements. This is particularly true when suspensions are implemented in isolation, without accompanying interventions and support aimed at addressing the root causes of the behavior. Several interventions can be offered to students, including the following suggestions.

- 1. Community Service/ Work Education
- 2. Pastoral Care Post Suspension Follow-Ups
- 3. Online/Modular Lessons
- 4. Student Support Group

Community Service/ Work Education

Students who commit infractions may be required to complete a designated number of community service hours based on the severity of the offense while on suspension to help them develop certain positive attitude such as a sense of responsibility, industry, patience and accountability.

The school has the option to collaborate with specific nongovernmental organizations (NGOs) or SDA ministries to provide opportunities for students to engage in volunteer work. In addition, students may be assigned tasks such as participating in community clean-up activities in various locations near the school or within the community. Upon completion of the designated number of service hours, students are required to obtain a clearance from the designated officer.

Student Support Group

The principal should evaluate the appropriateness of organizing a weekly or bi-weekly Student Support Group meeting involving students, selected teachers, the counsellor, and/or the chaplain to monitor changes in the students' behavior, goals, and plans. This meeting can serve as a platform to address concerns and proactively

prevent future instances of misbehavior that my result again in suspension. Snacks may be served during the meeting to create a less formal and friendlier atmosphere. The SSG may be disbanded once substantial enhancements are observed in the students' educational, emotional, social and spiritual welfare.

Section 9. Revocation of School Privileges and Rights

Students who have earned a suspension may face the revocation of certain school privileges and rights, including but not limited to those listed below:

- 1. Students may forfeit any discounts on tuition fees, development fees, and other applicable fees.
- 2. Students may forfeit the privilege to hold a position as an officer in any student organizations or clubs within the school.
- 3. Students may forfeit the opportunity to participate in any school-sponsored field trips.
- 4. Students are not eligible to participate in competitions or to represent the school in any extracurricular activities.
- 5. Students may not be allowed participation in graduation.

The length of forfeiture of school privileges may take one to six months or longer contingent upon the decision made by the School's Disciplinary Committee.

ARTICLE 8: REPORTING AND MONITORING VIOLATIONS OF POLICIES AND PROCEDURES

Section 1. The Teacher's Responsibility

The Homeroom Teacher

- 1. The homeroom teacher is the primary individual responsible for addressing issues and concerns related to the behavior of each student under his/her care and supervision.
- 2. His/her responsibility includes monitoring the behavior and conduct of his/her students both inside and outside the classroom.
- 3. He/she should regularly communicate with subject teachers regarding the conduct of each student in their specific subject, particularly focusing on students who appear to be struggling.
- 4. Throughout the academic year, the homeroom teacher must allocate a few minutes to read one or two subsections of this Handbook. This practice aims to enhance students' awareness of their responsibilities and serve as a reminder to adhere to appropriate codes of conduct.
- 5. At the commencement of the academic year, he/she must create a Violation Point Monitoring Information Sheet (VPMIS) for individual student to document any infractions, and to oversee any recurring misconduct that may necessitate counselling, disciplinary measures, or more severe interventions.
- 6. He/she is responsible for the prompt updating of the VPMIS upon receiving and assessing a reported infraction.
- 7. He/she should alert students who are losing points due to infractions to prevent them from repeating such behavior, which could lead to disciplinary actions.
- 8. He/she should likewise inform parents/guardians of students who have committed any infraction.

9. The VPMIS should be transferred to the succeeding homeroom teacher of his/her homeroom class for the next academic year.

The Subject Teacher

- 1. The subject teacher serves as secondary support to homeroom teachers, ensuring that every student complies with the policies and procedures outlined in the Student Handbook.
- 2. He/she is responsible for informing the homeroom teacher of any misbehavior or policy violations committed by the student in his/her class. Neglecting to report such infractions will be considered as dereliction of duty.
- 3. He/she should consult the homeroom teacher to verify whether appropriate measures have been taken to address student misbehavior or infractions.
- 4. If the homeroom teacher fails to take action after receiving a report, the subject teacher has the option to escalate the concern by reporting it to the Student Affairs Office.

The Student Affairs Office (SAO)

- 1. The Student Affairs Office (SAO) is responsible for assisting students in cultivating coherent values and ethical standards through the appropriate implementation of the policies and procedures outlined in this Handbook.
- 2. SAO is accountable for assessing whether any policy violations have occurred upon receiving a report.
- 3. SAO is tasked with reviewing decisions made by the homeroom teacher, guidance counsellor, or any staff member concerning disciplinary measures or behavior interventions for a student who has behaved inappropriately.

4. SAO is responsible for implementing disciplinary actions, including but not limited to suspension, as outlined in this Handbook.

Section 2. Violation Point Monitoring Information Sheet

The Violation Point Monitoring Information Sheet (VPMIS) is a compact and convenient tool designed to document and monitor violations committed by individual students. It serves as a simple recordkeeping system aimed at facilitating the effective management of student's points and behavior over the course of the academic year.

At the onset of each academic year, it is required that every homeroom teacher generates an index card for each student within his/her class. This index card may also serve as a resource for the distribution of Conduct Awards at the closure of the academic year. Provided below is a sample format of VPMIS:

Section 3. Step-by-Step Procedure in Reporting and Monitoring Violations

- 1. At the beginning of the academic year, every student is assigned 100 merits or points, which will be deducted for each violation committed, known as demerit. Unused points from the previous year cannot be carried over the following year.
- 2. Any teacher or staff member who has observed a breach of any policies or procedures outlined in this Handbook is required to promptly inform the homeroom teacher.
- 3. Upon receipt of a report, the homeroom teacher confirms its accuracy by conducting an interview with the student in question and corroborating the information with other students who may have observed the incident.
- 4. Once the violation has been confirmed and established, the homeroom teacher will review Article 6, Sections 2, 3, and 4 of this Handbook. The teacher will identify the infraction, determine the number of points or demerits that must be deducted from the student's remaining points.
- 5. The homeroom teacher records the violation, including the date, LOI, frequency, deducted points, remaining points, and the individual who reported the violation, in the Violation Point Monitoring Information Sheet (VPMIS) of the student.
- 6. The homeroom teacher informs the student about their remaining points and cautions them about the possibility of facing more severe disciplinary measures if the infraction is repeated.
- 7. The homeroom teacher informs the student's parents or guardians about the infraction, and seek their assistance to ensure that the student changes his/her behavior.
- 8. The homeroom teacher is required to promptly notify the Student's Affairs Office (SAO) of any violation falling under Article 6, Sections 2, 3 and 4 of this Handbook that necessitates progressive disciplinary action.

- 9. SAO reviews the report received and conducts a thorough and impartial investigation of the violation committed by the student.
- 10. SAO enforces the required disciplinary measures as specified in Article 6 of this Handbook or as determined by the Student Disciplinary Committee (SDC).

Section 4. Effectiveness of Violation Records

- 1. Students receive a new slate at the commencement of each academic year, allowing them to begin with a clean record and 100 merits.
- 2. Violations from the previous year will not be transferred to the following year, except for violations falling under LOI 3 and 4, which will persist for the duration of the student's enrollment in the school as a reference for any possible recurrence.
- 3. The VPMIS should be maintained as a point of reference for serious offences committed by the student until the student either withdraws or graduates from CAA.

ARTICLE 9: STUDENT ORGANIZATION, CLUBS AND EXTRACURRICULARS

Section 1. Intra-School Student Organization (OSIS)

Intra-School Student Organization, known as Organisasi Siswa Intra-Eskolah or OSIS, is a student organization at the school level in Indonesia, operating in junior high schools (Sekolah Menengah Pertama), senior high schools (Sekolah Menengah Atas), or vocational high schools (Sekolah Menengah Kejuruan). It is run by students selected to serve as OSIS administrators and supervised by a teacher appointed by the school.

OSIS plays a crucial role in fostering improved relationships within the academic community. Additionally, it offers assistance and backing in the enforcement of school regulations, policies, and initiatives. Most significantly, OSIS functions as a unifying, motivating, and coordinating entity for various non-academic student activities.

At CAA, the officers of OSIS are elected by the students each school year. The management and activities of OSIS are closely supervised by the designated faculty advisers. Historically, OSIS has organized events such as student inaugurations, song parades, teacher's day celebrations, women's day events, education day activities, community services, and Bible camps, among others.

Section 2. Clubs and Extracurricular Activities

A range of extracurricular activities and clubs are provided for senior high school students of CAA. Each student is encouraged to sign up and complete a maximum of two clubs or extracurricular activities throughout the academic year. Below are some of the clubs and

extracurricular programs available in the school.

Athletic Programs

Students can explore a few choices when it comes to sports. The school offers team sports such as basketball, futsal, and volleyball. Training and practice are usually done after school at least once a week. Those who are interested may inquire from the Physical Education teacher. Our students participate in intra and inter-sports competitions at the district, regional and/or national level.

Music and Arts Programs

One of the prominent extracurricular activities available for young musicians includes participation in the choir, ensemble, and minimarching band. To join the choir, students are required to successfully pass an audition conducted by the choir director. Conversely, the ensemble club is open to all individuals who possess a musical instrument and are eager to utilize their talents in creating and performing music for the school community.

In addition, the school provides extracurricular activities such as painting and traditional dancing.

AY Ciracas Club

This is a school-sponsored club exclusive for Adventist Youth members. It aims to help SDA youth to become disciples of Christ, and to equip them to share their experiences as witnesses of Christ.

English Ambassadors Club

This club aims to help increase the student's involvement in improving their English language proficiency as they participate in different English activities in a relaxed, friendly and fun setting

outside of the classroom.

Paid Extracurricular Activities

Students can join paid extracurricular activities for varied projects such as the following:

- 1. Creating PIN
- 2. Creating ID card
- 3. Mug Screen Printing
- 4. T-Shirt Screen Printing
- 5. Bag Screen Printing
- 6. Coding for Kids, creating games
- 7. Broadcasting
- 8. Robotics
- 9. Journalism
